The world generator used for PC and Minecraft Pocket Edition generates almost the same biomes, thus making it possible to use Biome Finders for PC for locating Minecraft Pocket Edition biomes. However, if the Minecraft Pocket Edition seed is negative the Player needs to add 4,294,967,296 to the seed number to make this process work.

A nether fortress, or simply fortress, is a large complex of bridges, corridors, and towers found in the Nether. Nether fortresses generate in all Nether biomes. To do so, the game splits the Nether into regions in which one of either a fortress or a bastion remnant can generate. The regions are 432×432 blocks in Java Edition and 480×480 blocks in Bedrock Edition. Each region has a 4 chunk ...
