Intuition - Wikipedia

Color perception is subjective, and certain colors have a very universal significance. This is coded into our reptilian brain, giving us that instinctive feeling of fire being dangerous and the beach being relaxing. Color psychology is a very important tool used by artists, interior decorators, and as a marketing mechanism in many industries.

Color Psychology

Gratitude is the expression of appreciation for what one has. It is a recognition of value independent of monetary worth. Spontaneously generated from within, it is an affirmation of goodness and ...

Gratitude | Psychology Today

Death anxiety is anxiety caused by thoughts of one's own death; it is also referred to as thanatophobia (fear of death). Death anxiety is different from necrophobia, the latter is the fear of others who are dead or dying, whereas the former concerns one's own death or dying.. Popular psychotherapist Robert Langs proposed 3 different causes of death anxiety: Predatory, predator, and existential.
