### The Color Of Food Stories

The Color of Food captures the heart and souls of farmers of color... farmers that are frequently forgotten as the stories of agriculture in our country are told. Through the lens of a camera we step into the cultural history of our foods and the beautiful and proud people that grow them.

### The Color of Food: Stories of Race, Resilience and Farming ...

The Color of Food seeks to rectify this. By recognizing the critical issues that lie at the intersection of race and food, this stunning collection of portraits and stories challenges the status quo of agrarian identity.

### The Color of Food: Stories of Race, Resilience and Farming ...

These are the kinds of facts that propelled me to write The Color of Food: Stories of Race, Resilience, and Farming. When I joined the food and agricultural movement as a woman of color, I was immediately struck by the glaring racial disparities that live, not only in the food system regarding food access and health, but in the good food movement itself.

### The Colors We Eat—The Color of Food Changes Our Experience ...

W hen it comes to food, color is money. Food companies scan their products on the line with custom colorimeters to ensure mathematically consistent hues. Fruits and vegetables are shipped in chemically “modified” atmospheres, because “better stem and fruit color gives better prices,” according to the website of the delivery company TransFresh.

### The Color of Food: America's Invisible Farmers | Civil Eats

The color of food can affect how we perceive its taste, and food companies aren't afraid to use that to their advantage. An artist tests perceptions by dousing familiar foods with unorthodox colors.
